

# 100% TobeUs

## Matteo Ragni: a manifesto of making toy cars... together

by Elisa Massoni

Note by Alberto Alessi

**100% TobeUs (Matteo Ragni: a manifesto of making toy cars... together), ELISA MASSONI**

cm 13 x 18 | paperback | 64 pages | English and Italian texts | 10,00 euros | ISBN 978-88-7570-378-3

**100% TobeUs** is a project by **Matteo Ragni**. A toy car born from a project – a design as well as a life project – and made of cedar wood (aromatic, beautiful, natural); an ecological toy (strong, simple); a thought to be taught (respect, reuse, sustainability); a toy for children, men and women of tomorrow.

**100% TobeUs** was born of a less than noble aim: to serve as a harsh warning to two grandmothers who were crazy about their grandson. When he was met by a profusion of recreational items the father/designer said ENOUGH!

And so, for Matteo Ragni, wooden **toy cars** became a passion, an engagement, an ideal. It's an excuse for becoming absorbed in, and for asking other designers to get involved in, a project that leaves little room for ego, but plenty for childhood memories. There is the additional awareness that everyone – whether young and old – knows that when they pick up a pencil (**TobeUs** needs a pencil, not a mouse), their first thought is about the project's ethics.

In this book, **Elisa Massoni** provides us with a complete hexegesis of **TobeUs** – from its birth to the toy car each and everyone of us can design by following few and simple rules!

**Now it's your turn to design a TobeUs!**
